John-Michael Keyes

I Love U Guys

In this presentation, John – Michael Keyes discusses The Black Swan. The Black Swan stems from the old belief that all swans were white, and was used in reference to something impossible. When black swans were discovered in Southern Australia, the meaning changed. It's now used to refer to an improbable event. Black swan events can be both negative and positive; John-Michael connects the violent incident at Platte Canyon High School with the Black Swan Theory. And the aftermath is also in that category; how the outcomes and programs of The "I Love U Guys" Foundation are unpredictably positive.

As we celebrate 51 years of building safe and secure schools, we look at a great opportunity to continue to share information and practices that empower and motivate you to continue the dedicated work you do to keep our school safe.
