

‘After Hours’ School Events Safety & Security Controls

Ted Hayes, Senior Risk Manager, M3 Insurance

John Stangler, Director of Buildings & Grounds &
Safety Coordinator, Pewaukee School District

Facility Use Agreements

T

- Know who is in your school and what they are doing
- Security controls of your building
- Use of your equipment
- Pre and post activity inspection

Large Event Security Controls

T

- School providing supervision
- Law enforcement presence
- Mobile & moving
- Emergency communications

Preparation

D

- What systems do you have in place to identify a potential problem before it arises at a rival football game?

Handling of Money

T

- Money vs. food controls
- Movement of money from event
- Depositing money in bank

Emergency Communication

J

- Means of communication
- Who answers your '911' calls?
- Communication Loops?
- Internal communication team
- Is everyone empowered & know how to call 911?
- Radios

Protection of Utilities

T/J

Can your large event utility controls be controlled by an intruder or shooter?

- Security of electrical panels
- HVAC security
- Protection of internal utility areas/rooms
- Protection of external buildings and utility boxes
- Are your fire pull stations covered?

Home vs. Away Event Safety/Security Controls

T

- Inside or outside activity
- Emergency communication with your school district
- Transportation or movement of students
- Local medical facilities

Police/Fire

D

- Does your local PD have access to your cameras?
- Do they have keys & fobs?
- What other processes do you have in place in your district?

Theater Safety

J

- Fire Department Approvals
- Smoke machines
- Set Building/Training

Who is in Charge?

D

- We know what we do for games against our biggest rivals for football and basketball, but what do we do for the smaller events, practices, theater performances?
- Often times, it's just a custodian.
- What administrator presence is at after-school activities?

Weather Contingencies

J

- Who's watching?
- Apps/Notifications?
- Evacuation areas?
- Part of your EOP?
 - Lightning
 - Severe Thunderstorms
 - Extreme Heat
 - Extreme Cold
 - Flash Flood
 - Snow/Ice
 - Damaging Winds

Transportation Safety

J/T

- Sign-in & out process?
- Field Trip Calendar?
- Accident?
- Breakdowns?
- Background checks?

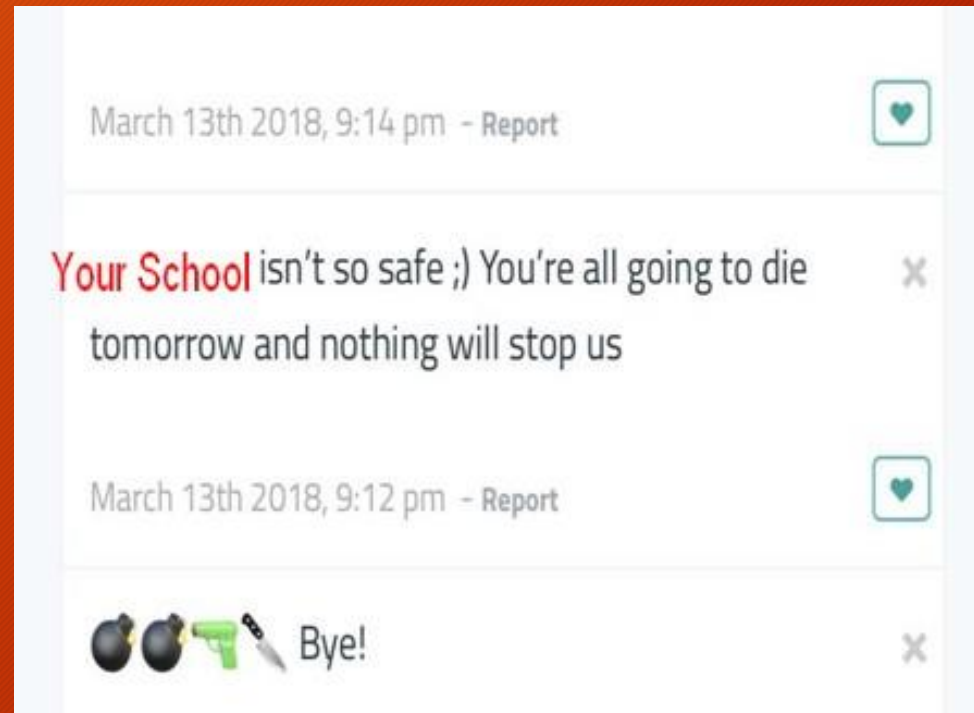

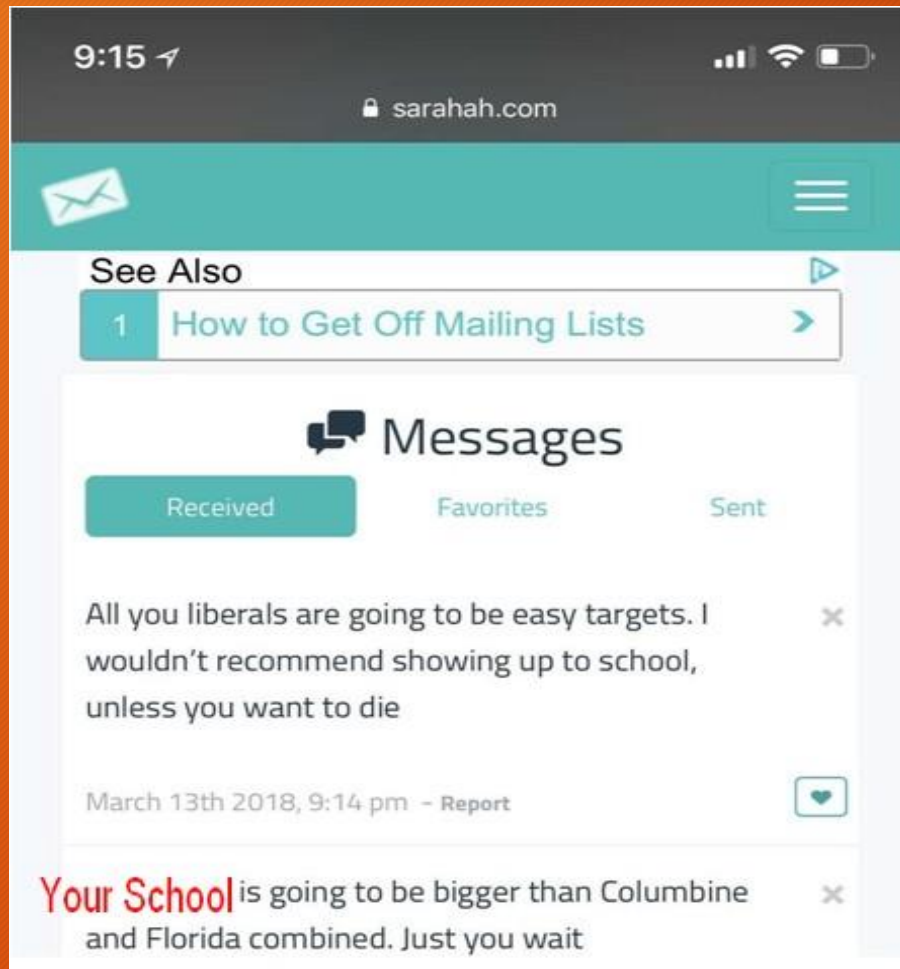

Social Media

J

- Is it monitored?
- Personal vs. School accounts?
- Off-boarding process
- Do you have a threat reporting process in place?
 - Bathroom walls, digital threats, etc...?
- Digital Threat Assessment Training

This threat is uploaded to your parents Facebook page on Sunday night at 10 pm? What is the process for this?

D

Volunteers

J

- Background checks?
- Regular rotation?
- All required to check in?
- Field Trip Chaperones
- Busing

Pick-Up & Drop-off

D

- When was the last time you focused on parent pick-up and drop-off?
- Safe routes to school?

Before & After School Care

J

- What door access or system do you have in place for before & after school childcare programs?
- Controlled entry?
- Allow walkers?

Summer School Safety

D

Just because it's summer school, doesn't mean we sacrifice safety for convenience.

- Single point of entry?
- Fob/key access?
- Drills?
- Site familiarity?

Fire/Flood/Tornado

J

- Restrict building access as much as possible due to potential hazards
 - Asbestos, mercury, lead, chemicals
- Structural, electrical, hazardous materials
- Don't allow school district employees into the building
- Work with insurance company ASAP to define roles
- Set-up a pre-arranged agreement (ERPP) with a remediation/restoration company that will agree to and has the resources to respond promptly

Fire/Flood/Tornado

J

- City, Village, Municipality - Utilities
- Insurance Company (adjuster)
- Restoration company
 - Pre-approved by insurance provider
- Multi-disciplined environmental consultant
- Environmental contractor
- Provide agency maps and site utilities prior to the event

School Emergency Scenarios

- Bleachers Collapse at a large event
- Fight between two basketball teams/parents get involved
- Abrupt storm with high winds approaching - tornado warning
- Fire alarm goes off at a large indoor event
- Loss of power/low light levels/generator failed so no emergency lights
- A person acting suspiciously walks onto the court of a game
- A student lights a pack of firecrackers at a large event causing panic
- The play is using a fog machine and sets off the fire alarm
- A strong odor of natural gas is identified during the school dance

School Emergency Scenarios

- How would your schools respond to a tornado warning issued at the end of the school day?
- What would happen or how would your school staff respond if there was an active threat during a JV girls' basketball game?
- Updated memorandums of understanding with emergency departments to include busses and after school programs such as daycares
